# DIGITAL GROWTH PROPOSAL FOR AUTOHEX

Turning Autohex's 24-hour expertise into Iloilo's #1 search result for ECU remapping, module repair, and automotive electronics — and turning that visibility into booked jobs.

---

#### PREPARED FOR

Autohex Automotive Electronics Repair & Module Programming  
C1 Road, Abilay Sur, Oton, Iloilo

#### PACKAGE

Website + SEO Setup  
+ Monthly Growth Retainer

#### VALID UNTIL

30 days from issue date

# 01 WHERE AUTOHEX STANDS TODAY

Autohex already has what most shops don't: **real specialization** (ECU, ABS, BCM, TCM, EPS, airbag, cluster repair), **24-hour availability**, a **100% recommended rating**, and **2,000+ Facebook followers**. The hard part of the business — being good at the work — is done.

**The gap is visibility.** Right now, a vehicle owner in Iloilo searching Google for "*ECU repair Iloilo*", "*chip tuning near me*", or "*DPF problem Oton*" will not find Autohex — because there is no website for Google to rank. Every one of those searches is a customer calling a competitor, or worse, paying dealer prices for a module that Autohex could have repaired.

**The core opportunity:** automotive electronics is a high-intent, high-value niche. People searching for ECU and module services have a broken vehicle *right now* — they don't browse, they book. Being #1 on Google for these searches in Iloilo means a direct line to the most motivated customers in the province.

## WHAT'S WORKING

- ▶ Strong Facebook presence with regular job posts and genuine reviews
- ▶ Clear niche positioning — software & electronics, not "general talyer"
- ▶ 24/7 availability — a massive differentiator no competitor markets
- ▶ Serves cars, trucks AND heavy equipment — multiple high-value segments

## WHAT'S MISSING

- ▶ **No website** — zero presence in Google search results and Google Maps organic listings
- ▶ **No SEO structure** — no pages targeting the services and towns Autohex actually serves
- ▶ **Facebook page not optimized for conversion** — no clear funnel from post → inquiry → booking
- ▶ **No consistent content system** — posting depends on spare time, so growth stalls

## WHAT THIS COSTS AUTOHEX (CONSERVATIVELY)

| LOST OPPORTUNITY                                                                              | ESTIMATE                  |
|-----------------------------------------------------------------------------------------------|---------------------------|
| Google searches for ECU/module/diagnostics services in Iloilo going to competitors or dealers | 10–30 searches/mo         |
| Average job value (remap, module repair, diagnostics)                                         | ₱3,000–₱15,000            |
| Conservative monthly revenue left on the table (capturing just 2–3 jobs/mo)                   | <b>₱10,000–₱30,000/mo</b> |

Estimates are deliberately conservative. One fleet account or one heavy-equipment job can exceed these figures on its own.

## 02 THE PLAN — THREE ENGINES WORKING TOGETHER

We don't just "make a website." We build a complete customer-acquisition system: a website that **ranks**, SEO that **brings searchers in**, and social media that **keeps Autohex top-of-mind** and converts followers into bookings.

### ENGINE 1

#### PROFESSIONAL WEBSITE

Your 24/7 salesman. A fast, mobile-first site built to rank and convert:

- ▶ Custom design with Autohex branding
- ▶ 6 dedicated service pages (remapping, ECU repair, diagnostics, DPF/EGR/AdBlue, module repair, immo/DTC)
- ▶ 9 location pages: Oton, Leganes, Tigbauan, Guimbal, Pavia, San Miguel, Santa Barbara, Iloilo City, Mandurriao
- ▶ Quote/contact form + one-tap Messenger, call & directions buttons
- ▶ Facebook & Google Maps integration, review showcase

### ENGINE 2

#### LOCAL SEO

Getting Autohex to the top of Google for searches that turn into jobs:

- ▶ Full keyword research for Iloilo automotive market
- ▶ On-page SEO on every page (titles, meta, schema, speed)
- ▶ Google Business Profile optimization — photos, services, posts, Q&A
- ▶ Google Search Console setup & indexing
- ▶ Local citations & directory listings (NAP consistency)
- ▶ Review-generation system for Google & Facebook

### ENGINE 3

#### SOCIAL MEDIA MARKETING

Turning 2,000 followers into a steady flow of inquiries:

- ▶ 12 posts/month (before-afters, tips, promos, testimonials)
- ▶ Branded graphics & short-form video edits (Reels)
- ▶ Content calendar — consistent, never random
- ▶ Facebook page optimization (CTA, services, links to site)
- ▶ Engagement & inbox-response playbook
- ▶ Monthly performance report in plain language

**Already done — at no cost to you:** the website has already been designed and built as a live demo (the site shown to you). If you proceed, we simply refine it with your real shop photos and launch it. You're not paying for a promise — the product already exists.

### WHY LOCATION PAGES MATTER

When someone in Pavia searches "*ECU repair Pavia*", Google favors pages specifically about Pavia. Autohex will have a dedicated, optimized page for each of 9 towns — competitors with a single generic page (or none) simply cannot outrank that structure. This is how a shop in Oton becomes the visible answer for the entire province.

## 03 DELIVERABLES & TIMELINE

### FULL DELIVERABLES LIST

| WORKSTREAM   | DELIVERABLES                                                                                                                                                                                                                                              | WHEN           |
|--------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|
| Website      | Custom branded site • homepage • 6 service pages • 9 location pages • contact/quote forms • Messenger, call & Maps integration • mobile-first & fast-loading • SSL-secure hosting setup • launch                                                          | Weeks 1–2      |
| SEO          | Keyword research • on-page optimization (all 16 pages) • LocalBusiness schema markup • Google Search Console setup & sitemap submission • Google Business Profile full optimization • 10+ local directory/citation listings • review-generation templates | Weeks 1–3      |
| Social Media | Facebook page optimization • Month 1 content included FREE (12 posts) • branded graphic templates • Reels/short-video edits • content calendar • inbox-response playbook • then monthly via Growth Retainer                                               | Month 1 onward |
| Reporting    | Monthly report: Google rankings, website visitors, inquiries/leads, Facebook reach & engagement — in plain language, no jargon                                                                                                                            | Monthly        |

### 90-DAY ROADMAP

| PHASE      | FOCUS                                                                                                     | MILESTONE                                            |
|------------|-----------------------------------------------------------------------------------------------------------|------------------------------------------------------|
| Days 1–14  | Website live, Google Business Profile optimized, Search Console indexing started, Facebook page optimized | Autohex has a complete, professional online presence |
| Days 15–30 | Location pages climbing local results, free Month 1 content running (12 posts), review system active      | First Google appearances for town-level searches     |
| Month 2+   | Growth Retainer active: SEO maintenance + 12 posts/month, rankings compounding on high-value keywords     | Measurable inquiry growth, month over month          |

### THE MATH THAT MATTERS

One-time setup: **₱40,000** → Break-even: just **3–5 average jobs**.

And unlike ads, a ranking website keeps producing customers for years — it's an asset you own, not a bill that stops working when you stop paying.

## 04 INVESTMENT

Two simple parts: a one-time setup that builds your entire online foundation, and an optional monthly retainer that keeps it growing.

### PART 1 — ONE-TIME SETUP

| COMPONENT                                                                                     | PH MARKET RATE (2025–2026)                              | VALUE   |
|-----------------------------------------------------------------------------------------------|---------------------------------------------------------|---------|
| Custom 16-page website (design, build, launch)                                                | ₱40,000–₱80,000 for business sites                      | ₱40,000 |
| Complete SEO foundation (keyword research, on-page on all 16 pages, schema, Search Console)   | ₱15,000–₱50,000/month for PH small-business & local SEO | ₱15,000 |
| Google Business Profile optimization + 10+ citations + review system                          | Bundled in local SEO retainers above                    | ₱8,000  |
| Facebook page optimization + Month 1 of social media FREE (12 posts, branded graphics, Reels) | ₱12,000–₱30,000/month for starter–growth PH packages    | ₱12,000 |
| Total market value                                                                            |                                                         | ₱75,000 |
| AUTOHEX ONE-TIME SETUP — EVERYTHING ABOVE, ONE PRICE                                          |                                                         | ₱40,000 |

**You know what a website alone costs — you've paid ₱40,000 for one before.** This time, the same price gets you the website *plus* the complete SEO foundation *plus* your first month of social media free — and the live demo proves it's real.

### PART 2 — GROWTH RETAINER (FROM MONTH 2, OPTIONAL)

| WHAT'S INCLUDED MONTHLY                                                                                  | PH MARKET RATE (2025–2026)                    | RATE       |
|----------------------------------------------------------------------------------------------------------|-----------------------------------------------|------------|
| SEO maintenance — rank tracking, GMB posts & updates, review management, content updates, monthly report | ₱15,000–₱50,000/month for local SEO retainers | —          |
| Social media — 12 posts/month (graphics + Reels), calendar, engagement playbook, monthly report          | ₱12,000–₱30,000/month for SMM packages        | —          |
| Bought separately, per month                                                                             |                                               | ₱27,000+   |
| AUTOHEX GROWTH RETAINER — BOTH, EVERY MONTH                                                              |                                               | ₱20,000/MO |

Rates reflect published 2025–2026 PH pricing: agencies charge ₱15,000–₱100,000/mo for small-business SEO and ₱12,000–₱65,000+/mo for SMM; even the cheapest Iloilo SEO provider charges ₱1,500/mo for a bare-bones service. Retainer is month-to-month — no lock-in, cancel anytime with 15 days' notice.

## PAYMENT TERMS

50 / 50

- ▶ **₱20,000** — on signing (work begins immediately)
- ▶ **₱20,000** — on website launch (within 14 days)
- ▶ **Growth Retainer** — ₱20,000/mo from Month 2, billed in advance; Month 1 social media is free with setup

GCash, bank transfer, or cash accepted. Official receipt issued.

## WHAT'S NOT INCLUDED **No surprises**

- ▶ Paid ad spend (optional — if you later want FB/Google ads, the budget is separate and goes 100% to the platform)
- ▶ Domain name (~₱500–₱1,000/year if you want a custom .com/.ph — optional)

Prefer to pause after setup? The website, SEO foundation, and all files are yours to keep — the retainer simply keeps growth compounding.

## OUR COMMITMENT

- ▶ **Website live within 14 days** of signing — or we work free until it is
- ▶ **Full transparency** — you see every post before it publishes, and every report in plain language
- ▶ **You own everything** — website files, content, graphics, and logins are yours, forever

## 05 NEXT STEPS

---

- 01 Approve this proposal**  
Reply or sign below — we start the same week.
- 02 30-minute content session**  
We collect your best job photos/videos, confirm service details and any promos. This is the only time we need from you.
- 03 Website goes live (within 14 days)**  
Refined with your real photos, launched, submitted to Google, linked from your Facebook page and Google profile.
- 04 Content engine starts — Month 1 is on us**  
Your first month of social media (12 posts) is included free with the setup. You approve everything before it goes out.
- 05 First report + retainer decision (day 30)**  
Rankings, traffic, and inquiries — you'll see exactly what your investment is doing. Continue with the ₱20,000/month Growth Retainer, or keep the assets and run it yourself. No lock-in.

**Why act now:** every month without a website is another month of Iloilo searches going elsewhere. SEO compounds — the sooner the site is indexed and the location pages start climbing, the sooner Autohex owns these searches. Competitors are one website away from taking that spot.

Questions? Message us anytime — the same way your customers will soon be messaging you.
